Dear WSEAS

It's great to hear that you have had a positive experience with WSEAS (World Scientific and Engineering Academy and Society). It's important to note, however, that the perception of a publisher can vary among researchers and scholars, and individual experiences may not represent the overall consensus.

WSEAS is an independent organization that publishes scientific journals and conference proceedings in various fields of science and engineering. While they have been active for a considerable period of time, it's always recommended to evaluate a publisher based on multiple factors, such as reputation, indexing in reputable databases, impact factor, peer review process, and overall standing in the academic community. They follow high standards of scholarly publishing and they check very carefully the plagiarism and the self-plagiarism I am proud that my paper after rigorous peer-review has been accepted in WSEAS Transactions . WSEAS has never published a low-quality paper and has not been involved in predatory publishing practices of the so-called predatory publishers I will continue sending papers to WSEAS. I trust them and I trust their peer review. Thank you for your great support YOU ARE THE BEST EVENT ORGANIZER. Thank you.
