Reviewer 1

- I improved all references from reviewer comments at [1], [3], [4], [5], [9], [10], [14], [15], [17], [18], and [19].

I made the English language corrections and checked the grammatical errors. I improved my English by using Grammarly, and I think it's better.

Reviewer 2

- I rewrote the concept of logistic regression in Section 2.1, and extend to the Newton-Raphson method.
I show the mathematical analysis in Section 5. Discussion. I added the application on the future work in Section 6. Conclusion.
- In the discussion section, I gave the detail and explanations.

Reviewer 3

- I added the recent reference at [1], [2], [14], [20], and [21].
- I highlighted the future direction and the improvements.
- I added the engineering application in section 6.

Thank you for the reviewer's comment, I highlighted what I changed from the reviewer's suggestion, and I rewrote in a new version to reduce the similarity percentage in Turnitin.
