I am very happy because I can publish one of my best papers which is part of my final project in statistics master program on a good journal platform that is WSEAS Transactions on Mathematics. The title of my paper is "Creditor Classification Logistic Regression Ensemble Boosting And Logistic Regression In Creditor Classification With Binary Response" and has been accepted in WSEAS Transactions on Mathematics. I made significant improvements proposed by reviewers on paper to deliver the final version for WSEAS Transactions on Mathematics to the max. I am pleased that this paper will soon be published in this journal and I am grateful to the Editor-in-Chief, Associate Editor, and team of 4 reviewers.
